

HAND SANITIZER STANDS

PROTECT YOUR EMPLOYEES AND VISITORS!

An elegant and efficient solution that guarantees safe entering stores, supermarkets, offices, cafes and restaurants. It is also recommended in hospital corridors, pharmacies, medical and dental offices, waiting rooms, toilets and any public places.

Put it in strategic points: at the entrances, near coffee, drinks or snack-machines, near reception desks and counters.

ADVANTAGES:

MADE OF STAINLESS STEEL, stands can be used both indoors and outdoors. They are durable, corrosion-resistant and meet all sanitary requirements.

Possibility to install any kind of wall-mounted dispenser.

The ability to adjust the height, which is convenient for children and people with disabilities.

Have a stable base reinforced with chipboard.

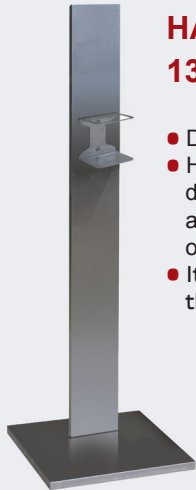

Easy to move.

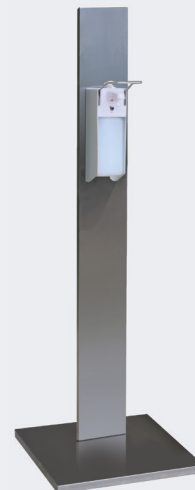

• Height adjustment

• Any model is available on wheels
